

ATEEF PASHA

Senior Mobile Software Engineer (React Native)

Bangalore, India | +919743045741 | AteefPasha044@gmail.com | [LinkedIn](#)

SUMMARY

Results-driven Senior React Native Engineer with nearly 5 years of experience building high-performance mobile applications for massive user bases. Expert in crafting highly interactive, spring-physics-driven UI components and optimizing mobile runtime performance. Deeply committed to technical excellence, leveraging end-to-end automation and proactive problem-solving to unblock full-stack dependencies and accelerate release cycles without compromising quality.

CORE SKILLS

Mobile: React Native, React.js, Cross-platform Mobile Applications
Languages: JavaScript, TypeScript State: Redux, Redux Toolkit, Context API
UI: Reanimated, Lottie, Responsive UI Design
Backend: REST APIs, Firebase, Nodejs
Payments: BBPS, BillDesk, Secure Transactions
Testing & Tools: Jest, Git, Android Studio, Xcode, VS Code, appium
Methodologies: Agile, Scrum, Client Delivery, Production Support

PROFESSIONAL EXPERIENCE

SystemEngineer-Mobile|[TataConsultancy Services](#) (May 2025 – Present)

- Led a mobile development team building enterprise-grade React Native and TypeScript applications.
- Championed TDD, guiding the squad to achieve and maintain 95%+ Jest test coverage across core modules.
- Architected a modular, shared UI component library featuring advanced SVG animations and spring-physics.
- Integrated Appium for end-to-end automation, significantly reducing manual QA time and accelerating releases.
- Managed complex macOS/Xcode build pipelines and drove critical app enhancements to ensure production stability.

SeniorSoftwareEngineer-Mobile|[RetailInsights Pvt Ltd](#) (Sep 2021 – Feb 2025)

- Delivered multiple cross-platform React Native applications supporting fintech and retail workflows
- Implemented secure payment and billing systems using BBPS and BillDesk
- Improved application performance by 30%+ through render optimization and efficient state management
- Designed reusable UI component systems to improve development speed and consistency
- Integrated REST APIs and Firebase for real-time data synchronization
- Built smooth animations and micro-interactions using Reanimated and Lottie
- Handled unit testing, debugging, and production support ensuring high stability
